MOCKUP STATE MACHINE DIAGRAM

In any state that is not hungry or insanity, if the hunger timer is ignored, the state switches to hungry

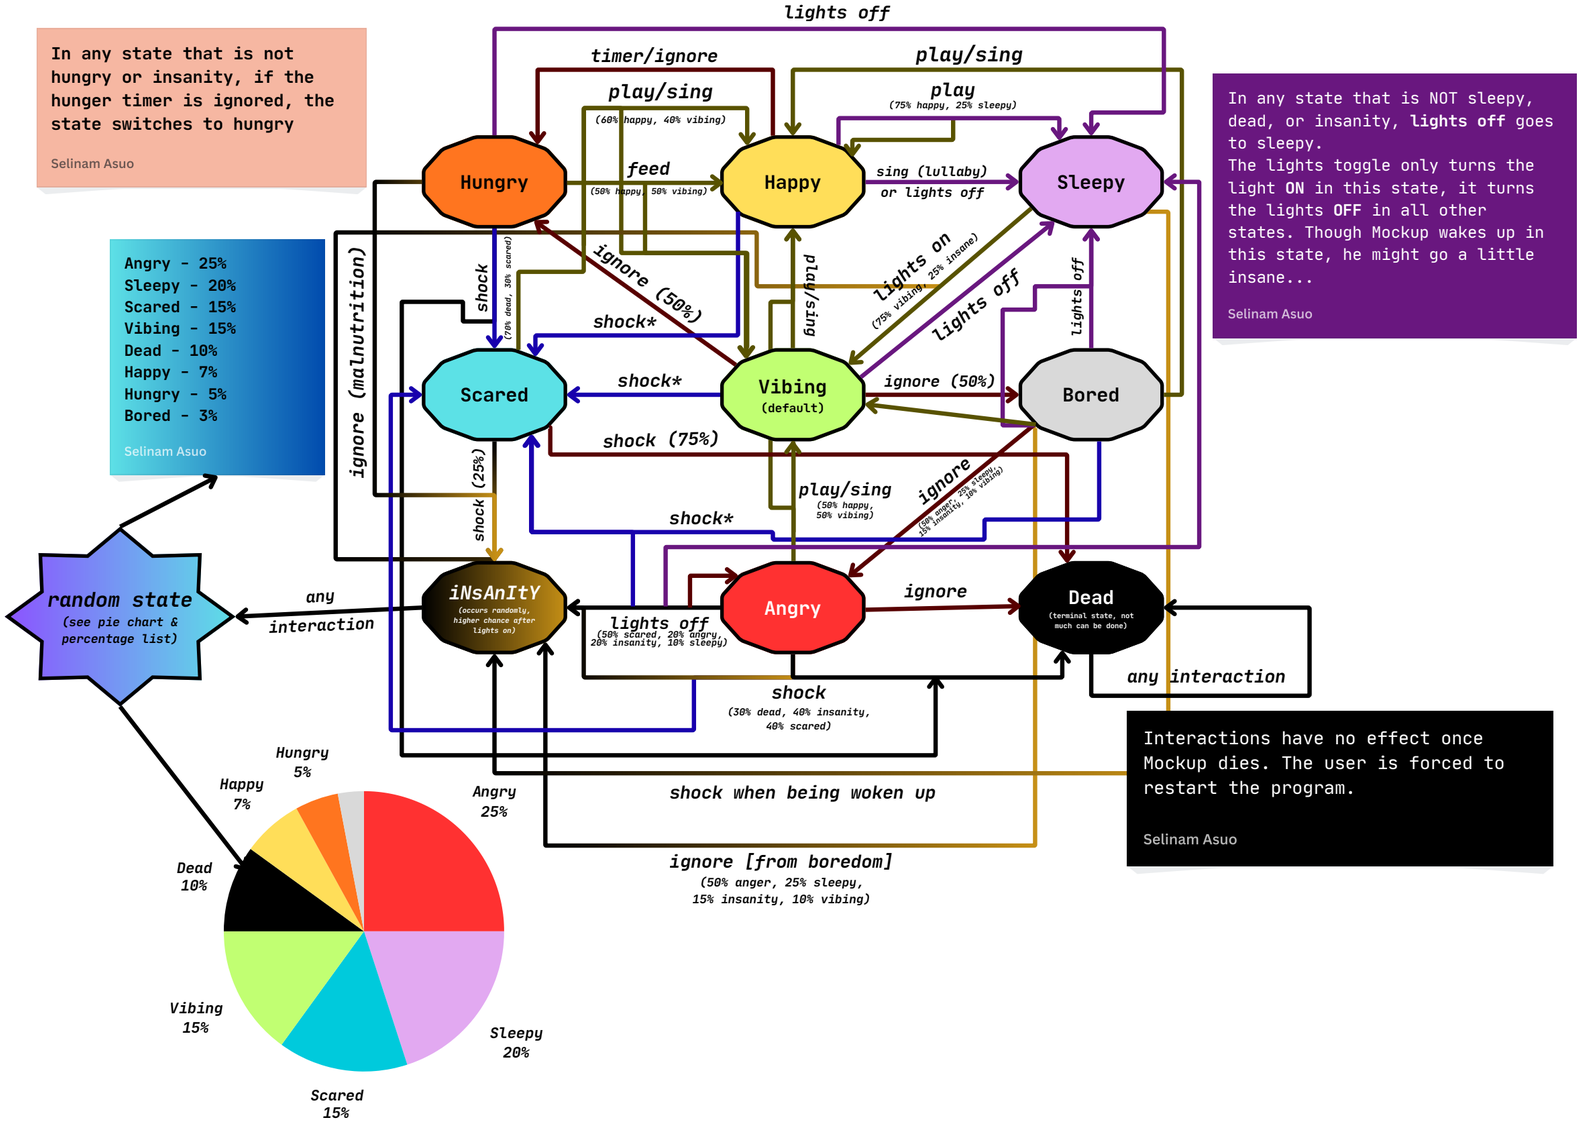

Selinam Asuo

Angry - 25%
Sleepy - 20%
Scared - 15%
Vibing - 15%
Dead - 10%
Happy - 7%
Hungry - 5%
Bored - 3%

Selinam Asuo

In any state that is NOT sleepy, dead, or insanity, **lights off** goes to sleepy.
The lights toggle only turns the light **ON** in this state, it turns the lights **OFF** in all other states. Though Mockup wakes up in this state, he might go a little insane...

Selinam Asuo

Interactions have no effect once Mockup dies. The user is forced to restart the program.
